Open Plan Office Layout; Three Person Cluster Workstations with Hubs

Brief: The new offices were to be open plan, creating an environment of accessibility and transparency. To reflect and reinforce the WRU brand, BBI specifically chose interiors influenced by Wales and Welsh rugby for the new headquarters including Farrell's Partners furniture featuring an accent colour of red, as well as a rugby ball shaped meeting table. The furniture helped to create a spacious and efficient office environment. This project was completed in December 2007.
